

Thank you!

Luke and Taylor

Taylor lives with his mother and grandmother, and after he had a brain tumor removed and had to wear a helmet at school for a while he got shy and stopped leaving the house. His mom wanted to have a Big Brother to give him encouragement and confidence. Things are turning around for Taylor - he's working hard to improve in school and enjoys going out with Luke around. There's more work ahead, but he doesn't feel like he's got to face it alone.
